- Use of the certification marks requires valid certificates or other declarations of conformity issued by DQS. You may only use the DQS marks shown on your issued and valid certificate (cf. page 6). After the expiration of the validity or in case of suspension, withdrawal or cancellation of a certification, all advertising with the certification shall be discontinued immediately.
- If your certificate does not apply to the whole of your organization, you are required to indicate the restricted scope for which it is valid (cf. page 3).
- The marks shall always be used in connection with the name of your organization. The certificate marks may only be used for organizations mentioned on the certificate. If your organization has several sites, it may only use the certificate marks for the site that is actually certified.
- When using a neutral certification marks, the underlying standards or specifications need to be specified in the immediate vicinity of the symbol (cf. page 3).
- Only the DQS marks shown on your issued certificate may be used.
- The marks shall not be used on a product nor product packaging nor in any other way that may be interpreted as denoting product conformity. - In the opinion of DQS the promotional or advertising material shall not be in conflict and, in no way create a misleading impression as to the nature of the certification status, except for the Mark that is prescribed for use herein.
- Statements of conformance may not make assurances or claims that may be misleading. For example (“As an ISO 9001:2015 registered company, we provide the world’s best coffee.”)
- References to verification statements in short form (e.g. verified at the reasonable level of assurance) must always include a reference to the detailed verification statement (either within the same medium such as a brochure or in another medium such as a website).

## d) Marks not to be used:

ISO.org and DAkkS owns the registered trademarks for their marks and shall not be used by DQS certified clients, e.g.:

## e) ISO.org guidelines:

- Don't register "ISO" as, or in, your domain name, website, or company name, e.g. www.isodatabase.com.
- Don't use "ISO" as, or in, your product or service name.
- Don't say that you, your products or your services are endorsed, approved or certified by ISO. (Remember, ISO doesn't perform certifications.)
- Always refer to a standard by its full name and revision. E.g. like: "XXX (Name of registered site) has been certified by DQS Inc. to ISO 9001:2015."

## Explanation and meaning of the certificate content

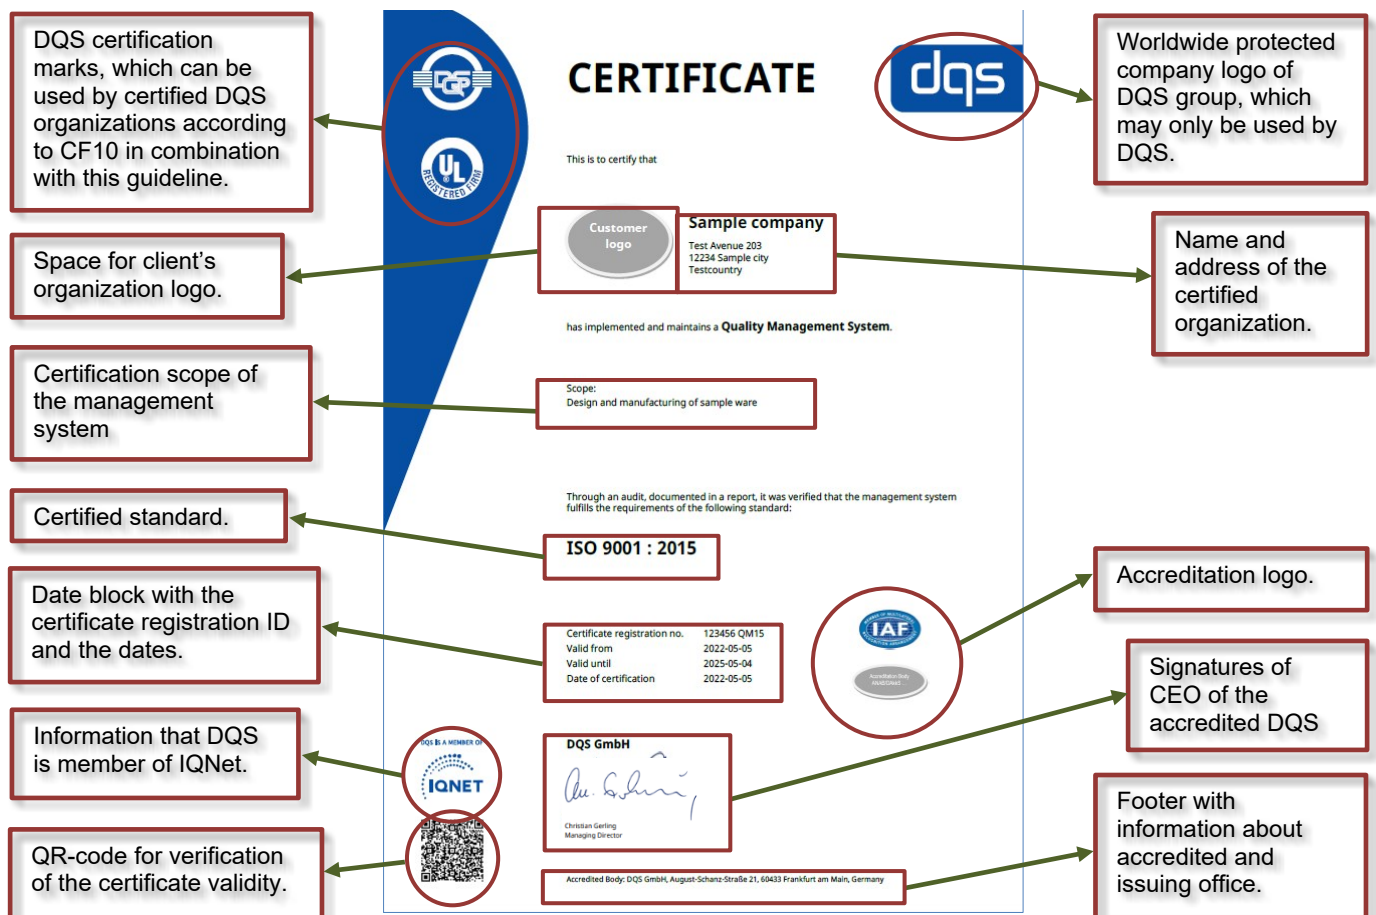

Illustration 1

In some cases, the certificate consists of several pages. The **“annexes”** to the first (main) page contain either a listing of the location/sites that are within the scope of the auditing and/or a detailing of the audit results and the associated product and/or process data. The certificate is always only valid with all pages.

DQS **“Excerpt certificates”** are certificates for locations/sites listed in the annexes of the DQS main certificates. These “Excerpt certificates” only valid in connection with their main certificates.

Our auditors or your customer service person will be happy to support you, examine the use of symbols during the audits and, if necessary, agree on corrective measures with you.
